Understanding Gender-Based Violence in the Global Context

Defining GBV and Its Global ImpactGender-Based Violence (GBV) encompasses harmful acts directed at individuals based on their gender or sex, including physical, sexual, emotional, and economic abuse. According to the World Health Organization (WHO), approximately 1 in 3 women worldwide have experienced either physical or sexual violence, often perpetrated by intimate partners or community members. - Cultural norms and patriarchal societal structures that normalize violence against women.
- Economic disparities that limit access to education and resources.
- Conflict and displacement, which often lead to increased vulnerability.
- Weak legal frameworks and enforcement mechanisms.

Understanding these drivers is essential for organizations operating across diverse contexts, as they inform strategic approaches to mitigating GBV.

The Role of Global Strategic Management in Addressing GBV

Corporate Responsibility and Ethical ImperativesModern organizations are increasingly recognizing that addressing GBV is not only a moral responsibility but also a strategic imperative.
