**Movement and Accuracy** The Rolex New Extended Edition is powered by the latest in-house caliber advancements. Most models are equipped with the Caliber 3235 or its successor, featuring:

- Chronergy escapement for enhanced energy efficiency
- Paramagnetic blue Parachrom hairspring for resistance to magnetic interference
- Chronometer certification by COSC and Rolex's internal standards, ensuring precision within  $-2/+2$  seconds per day

The power reserve has been extended to approximately 70 hours, allowing for greater flexibility in usage and reducing the need for frequent winding.

**Water Resistance and Durability** Building upon the brand's legendary Oyster case, the extended edition offers increased water resistance—up to 300 meters (1,000 feet) in professional models like the Submariner or Sea-Dweller variants. The screw-down crown with Triplock triple waterproofness system further guarantees protection against water ingress. The inclusion of Ceramic bezel inserts and sapphire crystals enhances scratch resistance and durability, making these watches suitable for rigorous activities.

**Innovative Features for the Modern User**

Smart features are subtly integrated, with some models offering Magnetic Shielding to protect the movement from magnetic fields up to 15,000 gauss. Enhanced lume for visibility in darkness. Screw-down pushers in chronograph models for improved water resistance and operational reliability.
